

Welcome to the London Road Dental Practice in Coalville

As a family dental practice, we offer a wide range of services for our patients, from routine check-ups to specialist treatments including dental implants, cosmetic dentistry and more.

Why Choose London Road?

London Road Dental Practice is home to a highly-skilled team of dentists, including family dentists and treatment specialists, who provide all our patients with the very best dental care. They are supported by a fantastic team of dental nurses, hygienists and receptionists, all offering outstanding care from the moment you walk through the door.

Our Services

We offer a wide range of services at our practice, including

General Dentistry	3
Emergency Dentistry	4
Fillings, Crowns and Restorations	5
Cosmetic Treatments	6
Dentures, False Teeth and Dental Implants	7

Each of these is outlined on the following pages.

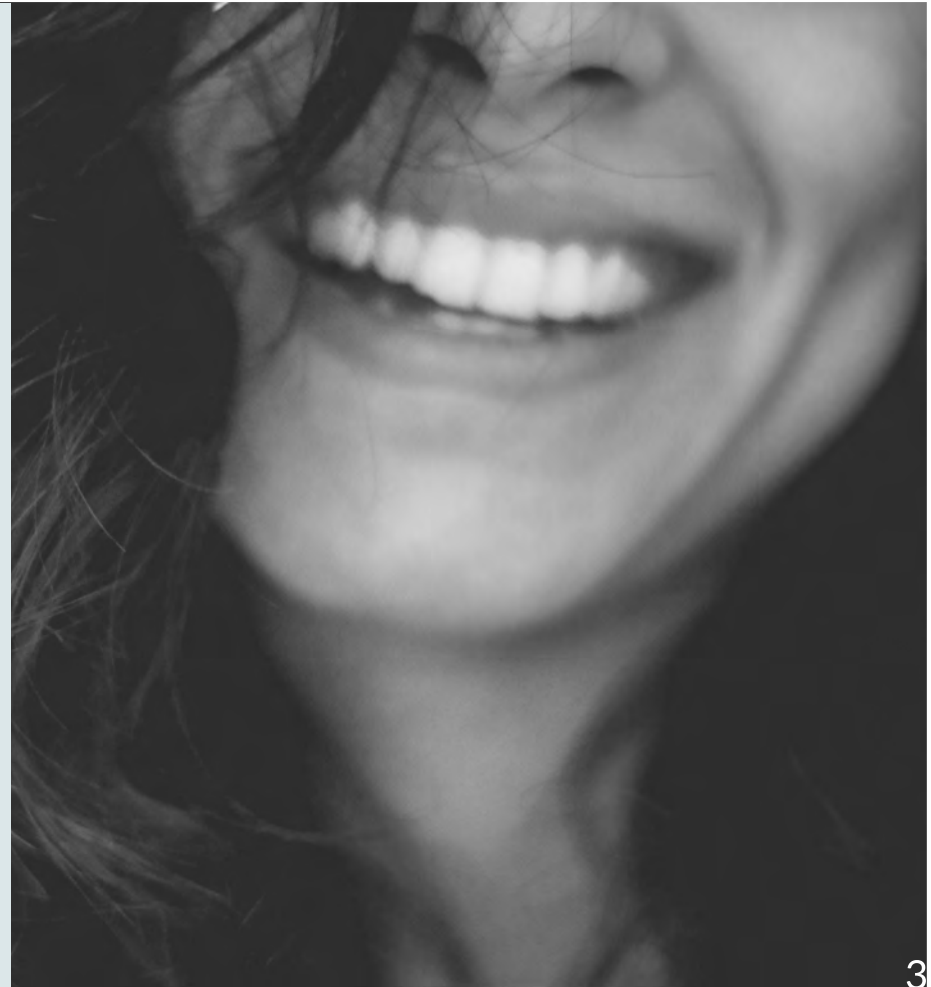

If you would like to know more about any of the treatments we offer, please get in touch – we will be very happy to discuss your individual needs, and recommend the best course of treatment for you.

General Dentistry

Our honest approach to consultation and advice means we always help our patients find the right treatment for them to deliver the results they want to achieve.

As well as membership packages delivering outstanding value for our regular patients, we offer half price treatments for under 16s and free check-ups for children under six. We believe it's important to ensure children are used to seeing the dentist regularly and without fear, so our friendly team is focused on ensuring they have the easiest and most positive experiences when they visit us.

As well as routine dental check-ups and hygienist appointments to maintain good oral health, we offer regular oral X-rays to check the condition of teeth and their roots.

Emergency Dentistry

We deliver emergency dental treatments for those registered patients with a genuine emergency, as well as operating an out-of-hours service with an on-call dentist available at all times.

If you need to contact us for an urgent emergency
after our practice closes or on a weekend,
you can simply

call 01530 832392

to speak to the emergency dentist on call.

Fillings, Crowns and Restorations

Our dental experts offer a range of fillings, crowns and other teeth restorations. We are always happy to discuss the options with our patients so they can make an informed choice about the right option for them.

Some of the treatments we offer are outlined below.

Fillings

Where suitable we offer tooth coloured fillings wherever possible, because they give natural-looking results,

Crowns

We offer various crown options using the latest technology, including porcelain crowns. They are a fantastic way to transform your smile, providing complete coverage for teeth which have fractured or are likely to break. They also eliminate the dark line which is often visible at the base of traditional crowns, delivering a much more natural result.

Restorations

Using industry-leading technology, we deliver natural-looking and long-lasting ceramic fillings, crowns, veneers and other restorations. Treatments can often be completed in just one appointment, removing the need for temporary crowns and multiple visits to the dentist.

please contact us to discuss
your individual needs.**

Cosmetic Treatments

Having a straight, even smile can make the world of difference to your confidence. Modern dental treatments offer numerous ways to improve the appearance of your smile and achieve natural-looking results.

At London Road Dental Practice, our highly skilled and experienced dentists offer a wide range of cosmetic treatments to deliver the results you want.

Cosmetic treatments available at our Coalville practice include veneers, teeth whitening, teeth straightening and smile make-overs. If you're interested in improving the appearance of your smile, we'd be happy to speak to you about the best options to suit you.

Veneers

We offer a range of porcelain and same-day veneers, delivering fantastic, long-lasting results for patients who have some teeth which are misaligned or discoloured.

Teeth Whitening

Brightening your smile can make a huge difference to your appearance – and your confidence. We use the latest technology and safe, reliable techniques to deliver stunning results.

Teeth Straightening

Adult braces can achieve outstanding results, with subtle treatments that are almost impossible to see. Our specialist cosmetic dentists offer a number of treatments, including the popular Invisalign, and would be happy to speak to you about the best one to meet your needs and aims.

Dentures, False Teeth and Dental Implants

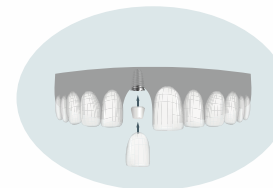

Our practice is widely known and respected for its expertise in dental implants, false teeth and dentures. Our highly skilled dentists use the latest technology to offer the best treatments to our patients, giving them long-lasting and reliable results.

If you have lost a tooth or several teeth, there is a solution to help you regain your confidence and get on with life without worrying. We'll advise you on the best options for you and support you with regular check-ups to ensure you don't experience any discomfort or difficulties.

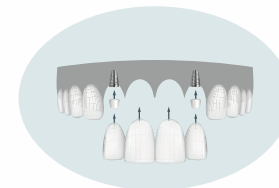

False teeth and dentures have come on significantly in recent years, and we offer the latest treatments and technologies to give the best results.

Dental Implants

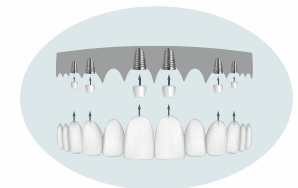

We also specialise in dental implants and full arch implants, giving a more permanent and sturdy option for dealing with tooth loss. A titanium fitting is attached to the jaw, with a false tooth or teeth on top, making smiling, speaking and eating just as easy as with your natural teeth.
